NO LATER THAN 10:00 A.M. THIS FRIDAY!**

### PRESIDENT'S MESSAGE

Dear Members:

I was extremely pleased with our September luncheon. We had very good attendance, totaling almost 60 members and guests. We all enjoyed a delicious lunch while Mayor Purcell shared his vision of the future of Nashville.

I'm anticipating yet another good turnout for October's luncheon, considering that the presentation topic is mold. As a licensed engineer working for a mechanical contractor, I am keenly interested in listening to one insurance company's perspective on an industry problem that has no real precedent to shape the course of potential litigation. As engineers, contractors and vendors, we could all suffer some exposure, right or wrong.

If you haven't seen the new Tennessee Engineering Center (TEC), I urge you to drop by and take a look around. It is extremely nice and meets our chapter's needs sufficiently. Approximately \$120,000 is still owed on the construction of the facility and our chapter has been asked to do its part in retiring this debt. In light of this, please consider you or your company sponsoring a team, a hole or a beverage cart for the upcoming golf tournament scheduled for this month. More details are listed below.

Again, I am proud to announce that we are off to a very good start this year. If there is anything we can do to improve our chapter's service to you, please do not hesitate to drop me an email.
