PRESIDENTS MESSAGE

Dear Members:

Let me first say that it is an honor to serve you as president of our Nashville chapter this year. Fortunately, I am surrounded by an enthusiastic group of able chapter officers and governors. We've met monthly over the summer break in an effort to forge a practical set of goals on how we can better serve you. We've identified several key elements: plan good and useful programs for our luncheon series; offer at least 12 CEUs for our licensed members; publish an updated and expanded membership directory; and finally, build on the momentum of membership participation we established last year. We encourage your input on how best to serve our professional community's needs. I look forward to seeing you.
